

Mark making can be a style of pattern!

Abstract Design  
Shapes Repeated

Pattern-a repeated decorative design

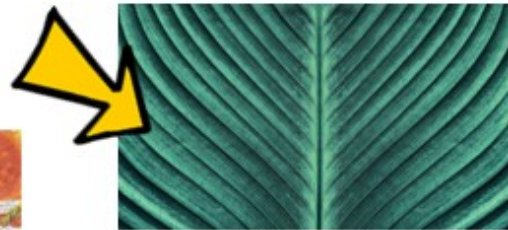

Gustav Klimt was a symbolist painter in the Vienna Art movement. Klimt's work is characterised by its strong use of shapes and patterns

# Pattern

## Natural vs Man Made pattern

**Natural**-anything with a natural found pattern for example leaves

**Collage**-an image created by using torn sections of paper. In order for this to look effective, small sections of papers of different shades and tones must be layered together

**Man Made**-a pattern that is built or created for example a brick wall
